- 13 Acknowledgements: We thank C. de Keyzer for generously helping to collect and prepare plant
- 14 materials for the experiment. We also thank R. Lee for help with monitoring and maintaining the
- 15 experiment.
- 17 Author Contributions: DMB and EMW conceived of the experiment; DMB collected the data
- and performed the statistical analyses, DMB and EMW wrote the manuscript. All authors con-
- 19 tributed critically to the drafts and gave final approval for publication.
- Data Availability Statement: Data will be available on KNB (https://knb.ecoinformatics.org/)
- 22 upon publication. All modeling code will be made available upon request.
